Apply to become a Fellow of the IET

Fellowship is the prestigious IET membership level awarded only to individuals who have demonstrated recent significant achievement(s) sustained at high levels for a period of at least five years in engineering, technology, or related disciplines relevant to the IET (usually within the last 10 years).

In this application, we will ask you to show evidence of your achievements in areas such as leadership, influence, senior responsibility, innovation, and professional services as detailed in the Fellowship Criteria document.

Using this form

The IET is built on the strength of its Fellows' expertise and experience. We hope to welcome you as new Fellow. This form will help you provide us with all the information we need to make a decision about your application.

Completing this form

This application form contains questions about you and your experience. Please read it carefully, and ensure that you answer every question by typing in the boxes or choosing the right option. Save the file as you go, so you don't lose your information. You'll also need to provide us with additional documents that prove your experience, when you submit this form.

Please read the [Fellowship Criteria document](#) that you will find in your application pack. You'll be assessed against these criteria in section 3. We strongly recommend that you contact a Fellowship Adviser to support you in preparing your application. Contact the Fellowship team at fellowship@theiet.org for help and to identify an Adviser.

What happens next?

Two supporters are required to support your application. A form must be completed by each supporter. One supporter should already be an FIET and know your work well, and the second could be your employer, line manager, or someone more senior who knows you well in your work capacity and can verify your submission.

Your application will be peer-reviewed and assessed by a panel of experienced Fellows of the IET. We will inform you about the panel's decision, and explain the outcome of your application. This will be one of the following:

- Fellow awarded
- Request for further information
- Interview
- Defer (working at Fellowship level, but not for the required 5 years)
- Decline

Your supporters

The role of a supporter is to confirm, from their personal knowledge, that you are a suitable candidate to become a Fellow of the IET. One supporter should already be an FIET and know your work well, and the second could be your employer, line manager, or someone more senior who knows you well in your work capacity and can verify your submission. (Please contact the Fellowship team at fellowship@theiet.org if this is not possible.)

You should discuss your application with your supporters before submission. You should provide your supporters with a copy, and ask them to verify that they understand the Fellowship Criteria and fully support your application. Your application will not be progressed until your supporters' responses have been received.
